

Professor Martin R Cowie, MD, MSc, FRCP, FRCP (Ed), FESC, FACC

Imperial College London, UK

Martin Cowie is Professor of Cardiology and Chair of Cardiology (Health Services Research) at the National Heart and Lung Institute at Imperial College London. He is an Honorary Consultant Cardiologist at the Royal Brompton and Harefield NHS Foundation Trust, London, UK, and a Non-Executive Director for the National Institute for Health and Care Excellence. Professor Cowie gained his medical degree from the University of Aberdeen, UK, before undertaking an MSc in Epidemiology from the London School of Hygiene and Tropical Medicine, UK, and completing his cardiology training.

Professor Cowie's research interests focus on health technology assessment and the delivery of efficient and effective care for patients with heart failure, with a particular focus on diagnostics, drugs, or devices.

Professor Cowie is a founding member and former Chairman of the British Society for Heart Failure, in addition to being a Fellow of the American College of Cardiology and the European Society of Cardiology (ESC). He chairs the Digital Health Committee of the ESC. Professor Cowie was shortlisted for the National Health Service Digital Champion (Leadership) Award in 2017.

Professor Cowie is Associate Editor of *Heart* and the *Journal of the American College of Cardiology: Heart Failure*, and an editorial board member of several other journals. He has contributed chapters to many books, and has written a book for patients entitled "Living with Heart Failure – A Guide for Patients". He has published 300 PubMed-listed papers and has a current H-index of 70.

He particularly enjoys speaking to members of the public about cardiovascular health issues, and has spoken at the Cambridge Science Festival, The Wellcome Foundation, and The Dana Foundation. He recently delivered a TEDx talk on "Beating the World's Biggest Killer".
